Policy Applies to:
All Mercy Food Service Staff, External Service Providers, Nursing Staff and Housekeeping staff (who have limited Food Service duties).

Related Standards:
- Food Hygiene Regulations 1974 (SR 1974/169) (as at 27 April 2016)
- Food Regulations 2015
- Food Amendment Act (No 2) 1996
- Food Act 2014
- Health and Safety at Work Act 2015
- EQuIP 1.5.2: The infection control system supports safe practice and ensures a safe environment for consumers/patients and health care/disability support workers.

Rationale:
- The Mercy Hospital Food Service providers are committed to ensuring that all food prepared and served meets safe food handling guidelines and is appetising and nutritious.
- The Food and Nutrition Guidelines (Ministry of Health) and the New Zealand Heart Foundation Guidelines will be met at all times.
- HACCP Principles in the Mercy Hospital Food Safety Programme guide the policy and procedures.

Objectives:
- All relevant legislation will be complied with;
- All suppliers will be approved contractors;
- All appropriate Food and Nutrition Guidelines will be followed to include any medical dietary requirements;
- Due diligence will be carried out in relation to food allergies/alerts.

Implementation:
- Adhering to the documented Mercy Hospital Food Safety Programme;
- All menus approved by a Registered Dietician;
- Food service staff will be provided with training - “All About Food Allergens” DVD;
- Cyclic seasonal menus;
- Process training will be provided to Nursing and Housekeeping staff;
- Food Services staff will have relevant food handling qualifications.

Evaluation:
- Audit by External Contractor annually
- Food Services internal audit programme
- Environmental Audit annually (OH/IC)
• Environmental Audit (HACCP) three times a year
• Laboratory swabbing (Gribbles – MAF) twice a year
• Patient feedback
